

ZENITH DYNAMICS - PRESS RELEASE

Date: April 10, 2026

Zenith Dynamics Announces Breakthrough in Quantum Neural Processors

Silicon Valley, CA -- Zenith Dynamics, the industry leader in next-gen hardware, today announced the launch of its new Quantum Neural Processor line. This new chip promises a 400% increase in tensor calculations over traditional silicon architectures.

CEO Alex Mercer commented, 'We are not just designing chips; we are building the future.'
